WHERE SILVER IS DEAD.

Temporary issues arise in every cameaign. But the silver question is not one of that kind. It is permanent. The battle for the free and unlimited coinage of silver will continue until victory is achieved.

The two great national parties were never more determined to fight this difference out to the end than they are today.

In castern states, where Democrats were very much afraid of silver two Austrian nun, Sister Theresa Grigolini years ago, they are enthusiastically advocating free coinage today. In every Democratic convention held this year born of innocence and devotion, these the silver element was in full control; and in every Democratic platform which was not restricted, for fusion pervious faith, armed with noble impurposes, to local issues, the Chicago platform was reaffirmed.

On the contrary, Republican conventions have declared for gold throughout the east, and every state conven-tion field by the Republicans of the consecrated to the amelioration of west has endorsed the financial policy mankind. In the vanguard of civiliof the administration.

Idaho they did the same. Nebraska Republicans were afraid of the word "gold" in 1896, but now it is their shift-boleth. Iowa Republicans have become aggressive champions of the gold standard.

The silver question is more of a party issue today than it ever was. "Silver is dead" only in the Republican party.

Lord Elgin, the retiring viceroy of India, like all the Bruces, is a great walker, and, as a rather natural consequence, a remarkably poor horseman. They tell a good story of him in India. At Simia one day he was taking horseback exercise along the local Rotten Row. One of the piliars of Indian state wanted to discuss a matter of imperial importance with him and sent an aide-de-camp to ask him if he might join his excellency in his ride. The aide-de-camp cantered up and said: "Your excellency?" No answer was vouchsafed. A little hon-plussed, the envoy tried again, with no better result. In desperation, he returned to the attack with: "Your excellency! Mr. So-and-so requests"—Lord Elgin turned upon him furiously with this laconic, but to his mind all-sufficient excuse for his pre-occupation: "Good heavens, sir'; can't you see that I'm riding?"
